PARIS MODEL HATS

Not very many all told, but quite an aristocratic collection, each one of which will add distinguished beauty to the toilette of which it becomes a part. All are from FAMOUS MODISTES—the SHAPES, the MATERIALS, the STYLES are of the HIGHEST CHARACTER, COSTLY, as all SPECIAL and EXCLUSIVE BEAUTY MUST BE. But now this is changed. We have placed our entire stock of IMPORTED HATS at prices well worth while to investigate.

Miss M. E. Killeen,
LEADING MILLINER.

HOTEL STREET

To Those in Quest of A RUG...

To Intending Purchasers of Rugs we would state that just before the change in tariff we received a large and varied assortment of

Japanese Rugs

By purchasing these Rugs before the change, a saving of about fifty (50) per cent. was effected, which our customers are to profit by, as we do not intend, at present, to increase the price but will sell them, while they last, at the old figure.

Under these conditions, a buyer here can now purchase these Rugs for much less than they are sold for on the mainland.

We have made a display of these Very Handsome Rugs in our large, central show window, where their beautiful designs and harmonious coloring is sure to attract attention.

BARK EMPIRE TO BE ATTACHED.

Seamen Libel the Vessel for Wages Which They Allege is Due Them.

Yesterday afternoon the bark Empire was libeled by Christopher Collins, Carl Jensen, John Petersen and John Anderson seamen of the bark, who claim that the vessel is indebted to them for wages in the sum of \$27 each. Papers were issued by the United States District Court and the vessel will be attached this morning. Davis and Gear represent the seamen.

Our Louisiana Crops.

As the season advances interest in the crop prospects becomes greater. From the present outlook this section of the country has every hope of large crops this fall. Even cotton, which has been very backward and has suffered severely from the wet weather, is improving rapidly and promises to turn out a fairly good yield. With respect to sugar cane, the conditions are most promising. The crop looks splendid and a heavy tonnage for the mill is indicated. There has been somewhat too much rain for those who are still backward with their field work, but the cane is growing finely. The Louisiana Sugar Planters' says, in its issue of Saturday last:

"The sugar cane is generally reported by our correspondents this week to be growing rapidly and exhibiting a dark green, healthy color. Those who have not finished the work of laying by the crop have been retarded very much by the rains, which have occurred nearly every day, and strenuous efforts are being made to hasten this work at every possible opportunity. Fortunately those who are still in the grass are in the minority, most of the planters having given the crop its last working, and they are now engaged in watching it grow and giving it a few supplementary touches where necessary. The outlook at this date is very promising, and should no disaster visit the sugar belt a good crop is assured."

With respect to the rice crop, the weather has been all that could be desired and a large yield is now indicated from all parts of the rice section. The river and Bayou Lafourche crops are particularly promising and in another month or six weeks new rice ought to be coming to market freely.—New Orleans Picayune.

German Naval Academy.

The officers of the German navy, before they enter the service of their country, receive an education at the Naval Academy at Kiel, which is thoroughness in every way equal to the training received by the officers of the United States navy at Annapolis. The Kiel Academy is one of the most elaborately equipped naval institutions in Europe. Every conceivable facility is provided for instructing the men in navigation, naval architecture and naval warfare. The academy has a model room which contains a most excellent and complete collection of charts, compasses and sounding apparatus, besides the usual models of vessels of a by-gone day. In the various lecture rooms physical, chemical and other scientific apparatus is to be found for the use of the instructors in teaching and of the students in experimenting.

One of the first lessons which the cadet must learn is the name of every sail, rope and block of a full-rigged ship, as well as the making of the various hitches and knots used by sailors. For this purpose a model is used which consists of a stand provided with a completely rigged foremast and bowsprit. Not a single block or rope is missing.

The life which the men lead at Kiel is not one of ease and luxury, although it has its pleasures as well as its pains. The cadets sleep four in a room in the dormitories in the upper stories. A table, a bed, a chair, a wash stand and a closet are all that the government allows a cadet. If he wishes to have a sofa and an armchair he must pay for these luxuries out of his own pocket.

In summer he rises at 5:45 o'clock and in winter at 6:45 o'clock. At 7:20 o'clock he is called to breakfast. At 8 o'clock he begins work. At 11 o'clock he has a light luncheon, and after a recess of half an hour he continues his work uninterruptedly until 3 o'clock. Dinner is served at 4 o'clock. The rest of the day he can devote either to pleasure or to study.

A Lame Shoulder.

A lame shoulder is usually caused by rheumatism of the muscles, and may be cured by a few applications of Chamberlain's Pain Balm. For sale by all dealers and druggists. Benson, Smith & Co., general agents Hawaiian Territory.
